

Teacher Curriculum

Futurekids Teacher Curriculum will enable teachers to become proficient in the latest software technology for better skills teaching. Please browse through our current curriculum offerings.

Foundations in Technology

Foundations in Teacher Technology is a comprehensive, 45-hour course designed to train educators in the basic fundamentals of computer literacy. Available separately in both K-8 and High School versions

Open Box Training

Open Box Training for Students is a 2-hour course designed to train students in the fundamentals and benefits of utilizing the wireless laptop at home and at school. The training is designed to familiarize the participants with the physical attributes of the wireless laptop and its capabilities.

Infusing Technology

Infusing Technology Self-study Guides provide a step-by step process for teachers to integrate education technology into their own curriculum and classrooms. Four subject guides are available for middle and high school students.

Mac 2 PC Transition Guide

The Mac2PC Transition Guide may be used for independent, self-study professional development or as the basis for a six-hour course. In both learning formats, the focus is to transition teachers from using the Mac OS to Windows.
