Mr. Stephane Ifrah
Futurekids
1628 First Avenue
New York, NY 10028

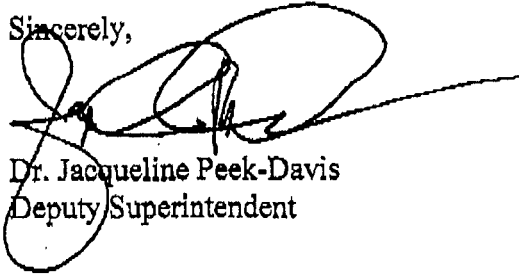

Dear Mr. Ifrah,

Over the past 4 years, Futurekids has successfully trained teachers, administrators, parents and students at many of our schools at District 17, including (P.S. 189, P.S. 316, P.S. 191 and district wide professional development training) with technology driven, standards aligned staff development. The quality of their field tested technology integrated, multidisciplinary curriculum is excellent, as well as their delivery of professional development services.

Futurekids program provides for authentic assessment of student achievement, while building confidence in computer literacy. Futurekids staff uses the most up-to-date teaching methodologies and strategies in order to respond to learning style needs of students, teachers and parents. Their staff continue to display the highest level of professionalism in the coaching and mentoring of our teachers as they address literacy technology training, alignment of programs and services to city and state performance standards.

I highly recommend Futurekids as a technology literacy trainer throughout the city.

Sincerely,

Dr. Jacqueline Peek-Davis
Deputy Superintendent
